REGULATORY CHANGE HAS REDUCED THE SIZE OF STREET CAPITAL'S ADDRESSABLE MARKET AND ELEVATED COMPETITIVE INTENSITY - IMPACTING ORIGINATION VOLUME AND MARGINS

While mortgage rule changes created a new prime conventional uninsurable market segment, this opportunity was not meaningfully accessible to Street Capital.

REGULATION HAS SHIFTED MORTGAGE MIX
(in Billions, 2017)

WINNERS

- Big banks
- Fringe lenders
- Non-prime lenders with sufficient balance sheets to support

LOSERS

- Non-big bank lenders
- Borrowers

IT BECAME APPARENT THAT STREET CAPITAL WOULD REQUIRE ADDITIONAL OUTSIDE EQUITY CAPITAL TO SOLIDIFY THE BUSINESS, GROW FROM CURRENT LEVELS AND BUILD THE SCALE REQUIRED TO OPERATE AS A SCHEDULE I BANK

Successive mortgage rule changes continue to challenge growth and profitability in the prime space

Lack of internal capital generation from legacy mortgage business

Significant barriers to financial performance and sustainable growth

Street Capital Bank launched in February 2017 – Street Solutions product met with significant demand

Requires capital to sustain/grow and significant cost infrastructure

IN EARLY 2019 THE BOARD FORMED A SPECIAL COMMITTEE, WHICH UNDERTOOK A THOROUGH REVIEW OF THE STRATEGIC ALTERNATIVES AVAILABLE TO THE COMPANY

Key Requirements

1. Significant and immediate investment of new equity capital
2. A substantial demonstration and commitment of ongoing capital and financial strength

Paths Considered

1. A significant strategic capital infusion, with a commitment of ongoing capital support
2. The sale of select assets of the Company
3. The sale of 100% of the Company

A Holistic Solution

- Discussions with expansive list of most logical counterparties
- Initial non-binding proposals related to all three potential transaction structures incl. more than one proposal for 100% purchase of the Company
- After a thorough review of the proposals received, the Board advanced two counterparties to conduct detailed due diligence with respect to their proposals to acquire 100% of the Company

In January, the Board agreed a strategic realignment was necessary to reduce costs in the business and conserve capital.

Arrangement Agreement secures Street Capital shareholders with attractive cash consideration and represents a source of ongoing financial strengths for the Company – the Board, with the support of the entire senior management team, unanimously recommends that shareholders vote in favour of the transaction*

*BMO Capital Markets is acting as exclusive financial advisor to the Company and has provided an opinion to the Special Committee and the Board of Directors that, subject to the assumptions, limitations and qualifications contained therein, the consideration to be received by the holders of Shares pursuant to the Arrangement is fair from a financial point of view to the holders of Shares. A copy of the opinion will be included in the management information circular to be filed and mailed to Street Capital shareholders in connection with the approval of the Arrangement at a special meeting of shareholders

PRESIDENT & CEO

STREET CAPITAL FACED SEVERAL CHALLENGES DURING 2018 LEADING TO A LACK OF CAPITAL FORMATION

Progress

- Diversification of funding sources
- More than doubled Street Solutions originations
- Strong revenue contribution from prime mortgage renewals
- Began to transform and modernize the organization
- Further enhancing risk and governance framework

Challenges

- Smaller/more competitive prime insured segment = limited ability to generate capital and grow Street Solutions originations further
- Limited funding in the large prime uninsured segment
- The increased costs of operating a Schedule I bank without the requisite balance sheet scale

	Year ended December 31, 2018	Year ended December 31, 2017
Total Street Solutions originations	\$421.4mm	\$203.7mm
Net interest margin – non-securitized assets	1.99%	0.82%

	Year ended December 31, 2018	Year ended December 31, 2017
Adjusted shareholders' diluted earnings (loss) per share	\$0.00	\$0.06
Adjusted return on tangible equity	0.4%	7.7%
Book value per share	\$0.78	\$1.13
Total prime mortgages sold	\$6.239B	\$7.232B
Net gain on sale - %*	New - 0.64% Renewal - 1.16%	New - 0.81% Renewal - 1.40%

*New excludes portfolio insurance, Renewals reflected as a % of renewals

STRATEGIC REALIGNMENT DEMONSTRATING EARLY PROGRESS BUT A HOLISTIC LONG TERM SOLUTION IS REQUIRED

- Indefinitely postponed the ongoing implementation of a core banking system, which would have enabled Street Capital to begin taking direct deposits
- Made the difficult decision to cut 30 positions across the organization
- Executed against a renewed go-to-market strategy calling for action on three specific streams focused on the prime side of the business

#1 - Prime New Mortgage Originations;

#2 - Prime Mortgage Renewals; and

#3 - Loan Origination Systems and Processes.

While Q1-2019 results showed some positive progress against the strategic realignment, a longer term solution is required.
